COMMITTEE ON  
HOMELAND SECURITY AND GOVERNMENTAL AFFAIRS  
WASHINGTON, DC 20510-6250

October 5, 2015

Mr. Austin McChord  
Chief Executive Officer  
Datto, Inc.  
101 Merritt 7, 7th Floor  
Norwalk, CT 06851

Dear Mr. McChord:

The Committee on Homeland Security and Governmental Affairs is examining former Secretary of State Hillary Clinton's use of a private email account and server during her time at the State Department. The Committee has learned that a product offered by Datto, Inc.—the Datto SIRIS S2000<sup>1</sup>—was purchased in 2013 for Secretary Clinton to provide on-site, immediate recovery of backup data in the event that the primary server failed.<sup>2</sup> The Committee is interested in the security and preservation of Secretary Clinton's official records, including whether this backup device was used to back up, recover, or store those records in any manner. I request your assistance with this important inquiry.

Datto, Inc. is “an innovative provider of comprehensive backup, recovery and business continuity solutions used by thousands of managed service providers worldwide,” offering cloud, hardware, and software devices.<sup>3</sup> A Datto SIRIS device, like the one acquired for Secretary Clinton, “takes data directly from the server and converts it into virtual machines that can be booted instantly from a remote web interface.”<sup>4</sup> Essentially, if the primary server fails, the Datto device acts as a virtual server to allow continued workflow while the primary server is fixed.<sup>5</sup> When acquiring a Datto SIRIS device, Datto offers its clients two options for storing the virtualized backups. The first option is to store the backups on-site on the Datto SIRIS S2000 product itself, creating a private cloud for the data that keeps the data within the customer's control only.<sup>6</sup> The second option is the data can be stored “remotely in Datto's secure cloud.”<sup>7</sup>

<sup>1</sup> According to Datto's website, its SIRIS product supports “business continuity” with server backups, virtualization, and cloud-based accessibility. See Datto Siris 2, found at <http://www.datto.com/siris>.

According to information received by the Committee, Platte River Networks (PRN)<sup>8</sup> billed the Clinton Executive Service Corp. (CESC) on May 31, 2013, to acquire a Datto SIRIS S2000 device. CESC appears to be a Clinton family company. According to documents received by the Committee, CESC oversaw contracting for the hardware and software required for Secretary Clinton's private server and email.<sup>9</sup>

When Secretary Clinton's private server was moved from her private residence to the New Jersey-based data center, PRN set up the Datto SIRIS device at this new location.<sup>10</sup> When acquiring the Datto SIRIS product, it appears that CESC representatives worked with PRN employees to determine how the Datto device would back up data on Secretary Clinton's private server.<sup>11</sup> According to documents received by the Committee, CESC chose to only store the backup data on-site on the Datto SIRIS device, thus creating a private cloud managed by PRN.<sup>12</sup> CESC specifically requested that no data be stored on Datto's off-site cloud at any time.<sup>13</sup>

Although Secretary Clinton apparently wanted "Datto options *without* offsite backup," there was confusion among PRN employees when they noticed that data from Secretary Clinton's private server was potentially being sent to Datto's off-site backup location.<sup>14</sup> In

<sup>12</sup> Email from Platte River Networks to Datto, Inc. (June 6, 2013) (on file with the Committee on Homeland Security and Governmental Affairs). PRN billed for work installing the device in June 2013. For use of the private cloud capability, Datto charges a monthly fee. Each month beginning in July 2013, PRN billed CESC for "Datto Month of Private Cloud Service." This monthly service fee apparently allowed Secretary Clinton to continually have a backup on a private, virtual cloud on the SIRIS S2000 device. <sup>14</sup> Email from Platte River Networks to Platte River Networks (Aug. 1, 2013) (on file with the Committee on Homeland Security and Governmental Affairs).

August 2015, employees at PRN discovered that Secretary Clinton's private server was syncing with "an offsite sync server . . . belonging to Datto."<sup>15</sup>

PRN employees reached out to Datto to determine if the server was actually sending data from the private server to Datto's off-site cloud for backup. One PRN employee wrote to Datto and stated, "[w]hen we made the purchase [of the SIRIS S2000], it was under the understanding that we didn't want to backup to Datto's [off-site] datacenter."<sup>16</sup> When a Datto employee determined that "for some reason this device [the SIRIS S2000] does appear to be syncing with the Datto Cloud,"<sup>17</sup> another PRN employee bluntly replied, "[t]his is a problem. This data should not be stored in the Datto Cloud . . . ."<sup>18</sup> Whereas CESC specifically requested that no data from Secretary Clinton's private server be backed up off-site, according to this information, it appears that Datto was providing backups for the server "from the beginning" of the contract.<sup>19</sup> Thus, as of August 2015, Datto apparently possessed a backup of the server's contents since June 2013.

In response to this finding, PRN employees directed Datto to not delete the saved data and worked with Datto to find a way to move the saved information on Datto's servers back to Secretary Clinton's private server.<sup>20</sup> According to documents received by the Committee, it appears that Datto and PRN employees discussed an option to save the data on a USB drive, send the USB drive to PRN, and "then wipe [the data] from the [Datto] cloud."<sup>21</sup> Despite these communications, it is unclear whether or not this course of action was followed. Additionally, questions still remain as to whether Datto actually transferred the data from its off-site datacenter to the on-site server, what data was backed up, and whether Datto wiped the data after it was transferred.

It also appears that PRN employees were directed by CESC to reduce how much data would be stored in each backup. In August 2015, a PRN employee raised the prospect that the length of the backups was reduced at some point during PRN's time managing the server. In an email to a colleague with the subject line "CESC Datto," the PRN employee asked if it is possible to use Mimecast,<sup>22</sup> PRN's email archiving system, to find an old email from CESC directing PRN to reduce the length of Datto's backups. He wrote:

<sup>21</sup> Email from Platte River Networks to Platte River Networks (Aug. 7, 2015) (on file with the Committee on Homeland Security and Governmental Affairs).

<sup>22</sup> PRN used a Mimecast product that allowed PRN to archive employee emails in a cloud-based server and search that archive as needed. *See* Mimecast, Archiving, Risk & Compliance (last accessed on Sept. 23, 2015) <https://www.mimecast.com/solutions/email-archiving-compliance/>.

Any chance you found an old email with their directive to cut the backup back in Oct-Feb. I know they had you cut it once in Oct-Nov, then again to 30days [sic] in Feb-ish. If we had that email, we are golden. Would Mimecast have archived it by chance? Wondering how we can sneak an email in now after the fact asking them when they told us to cut the backups and have them confirm it for our records. Starting to think this whole thing really is covering up some shady shit.... I just think if we have it in writing that they told us to cut the backups, and that we can go public with our statement saying we have had backups since day one, then we were told to trim to 30days [sic], it would make us look a WHOLE LOT better.<sup>23</sup>

The State Department formally requested all of Secretary Clinton's records related to her time as Secretary of State on October 28, 2014.<sup>24</sup> It is unclear why Secretary Clinton's representatives apparently directed PRN to reduce the backup time period of her emails around the same time period or in the months following the State Department's request.

In order to better understand Datto's role relating to Secretary Clinton's private server, the backup and security capabilities of the private server, and any directives provided to Datto relating to the server, I ask that you please provide the following information and materials:

1. Please produce all documents and communications between or among employees or contractors of Datto and employees of Platte River Networks, Clinton Executive Services Corp. (CESC), or any other party referring or relating to Secretary Clinton's private server or any backup device.
2. Please produce all contracts between Datto and Platte River Networks, CESC, or any other party referring or relating to Secretary Clinton's private server or any backup device.
3. Please produce all invoices, bills, and receipts prepared by Datto or its representatives or agents regarding Secretary Clinton's private server or any backup device.
4. Please produce all helpdesk, service, or support tickets received by Datto from Platte River Networks, CESC, or any other party related to the Datto device used to backup Secretary Clinton's private server.
5. Is Datto authorized to store classified information? Were any Datto employees authorized to view classified information? Please explain. Did Datto's contract

### **C. Definitions**

1. The term “document” in the request or the instructions means any written, recorded, or graphic matter of any nature whatsoever, regardless of how recorded, and whether original or copy, including, but not limited to, the following: memoranda, reports, expense reports, books, manuals, instructions, financial reports, working papers, records, notes, letters, notices, confirmations, telegrams, receipts, appraisals, pamphlets, magazines, newspapers, prospectuses, inter-office and intra-office communications, electronic mail (e-mail), contracts, cables, notations of any type of conversation, telephone call, meeting or other communication, bulletins, printed matter, computer printouts, teletypes, invoices, transcripts, diaries, analyses, returns, summaries, minutes, bills, accounts, estimates, projections, comparisons, messages, correspondence, press releases, circulars, financial statements, reviews, opinions, offers, studies and investigations, questionnaires and surveys, and work sheets (and all drafts, preliminary versions, alterations, modifications, revisions, changes, and amendments of any of the foregoing, as well as any attachments or appendices thereto), and graphic or oral records or representations of any kind (including without limitation, photographs, charts, graphs, microfiche, microfilm, videotape, recordings and motion pictures), and electronic, mechanical, and electric records or representations of any kind (including, without limitation, tapes, cassettes, disks, and recordings) and other written, printed, typed, or other graphic or recorded matter of any kind or nature, however produced or reproduced, and whether preserved in writing, film, tape, disk, videotape or otherwise. A document bearing any notation not a part of the original text is to be considered a separate document. A draft or non-identical copy is a separate document within the meaning of this term.
2. The term “communication” in the request or the instructions means each manner or means of disclosure or exchange of information, regardless of means utilized, whether oral, electronic, by document or otherwise, and whether face to face, in meetings, by telephone, mail, telex, facsimile, email (desktop or mobile device), computer, text message, instant message, MMS or SMS message, regular mail, telexes, discussions, releases, delivery, or otherwise.
3. The terms “and” and “or” in the request or the instructions should be construed broadly and either conjunctively or disjunctively to bring within the scope of this subpoena any information which might otherwise be construed to be outside its scope. The singular includes plural number, and vice versa. The masculine includes the feminine and neuter genders.
4. The terms “person” or “persons” in the request or the instructions mean natural persons, firms, partnerships, associations, corporations, subsidiaries, divisions, departments, joint ventures, proprietorships, syndicates, or other legal, businesses or government entities, and all subsidiaries, affiliates, divisions, departments, branches, or other units thereof.
5. The term “identify” in the request or the instructions, when used in a question about individuals, means to provide the following information: (a) the individual’s complete name and title; and (b) the individual’s business address and phone number.

6. The terms “referring” or “relating” in the request or the instructions, when used separately or collectively, with respect to any given subject, mean anything that constitutes, contains, embodies, reflects, identifies, states, refers to, deals with or is pertinent to that subject in any manner whatsoever.
7. The term “employee” in the request or the instructions means agent, borrowed employee, casual employee, consultant, contractor, de fact employee, independent contractor, joint adventurer, loaned employee, part-time employee, permanent employee, provisional employee or subcontractor.
8. The terms “you” and “your” in the request or the instructions refer to yourself; your firm, corporation, partnership, association, department, or other legal or government entity, including all subsidiaries, divisions, branches, or other units thereof; and all members, officers, employees, agents, contractors, and all other individuals acting or purporting to act on your behalf, including all present and former members, officers, employees, agents, contractors, and all other individuals exercising or purporting to exercise discretion, make policy, and/or decisions.
